[Index & Help](#) | [Images & Rights](#) | [Spec](#) | [Proposing Additions](#)

This chart provides a list of the Unicode emoji characters and sequences, with images from different vendors, CLDR name, date, source, and keywords. The ordering of the emoji and the annotations are based on [Unicode CLDR data](#). Emoji sequences have more than one code point in the **Code** column. [Recently-added emoji](#) are marked by a \oplus in the name and outlined images; their images may show as a group with “...” before and after.
